Market Condition

- Demand for renewal and development of water infrastructure facilities due to their aging remains stable
- Demand for disaster prevention and mitigation under the Fundamental Plan for National Resilience remains strong
- Demand remains strong in the private sector due to renewal of domestic plants
- Demand related to semiconductors partially recovered

Financial Highlights for Q3

*Comparisons are year-on-year

- Net sales: 29.2 bn yen (up 10.0%), operating profit: 4.3 bn yen (up 42.1%), profit: 3.0 bn yen (up 39.7%)
- Both revenue and profit increased mainly due to the contribution of Engineering business performance

FY2025 Financial Results Forecasts ⇒ Upward Revision

- Net sales forecast is 40.0 bn yen, unchanged from the previous forecast
- Operating profit forecast has been revised upward to 5.1 bn yen, up 0.6 bn yen (13.3%) from the previous forecast
- Profit forecast has been revised upward to 3.65 bn yen, up 0.35 bn yen (10.6%) from the previous forecast

Q3 Results Highlights

Market Condition

- Demand for renewal and development of water infrastructure facilities due to their aging remains stable
- Demand for disaster prevention and mitigation under the Fundamental Plan for National Resilience remains strong
- Demand remains strong in the private sector due to renewal of domestic plants
- Demand related to semiconductors partially recovered

*All comparisons are year-on-year

Net Sales

29.25bn yen
(2.65bn yen↑/10.0%↑)

- Net sales increased in Manufacturing and Engineering businesses on the back of the high-level orders backlog
- Net sales in Trading business decreased due to the impacts of long-term projects

Orders Received

29.35bn yen
(0.91bn yen↓/3.0%↓)

- Orders received increased in Manufacturing and Trading businesses
- It decreased in Engineering business

Gross Profit

9.87bn yen
(1.36bn yen↑/16.0%↑)

- Gross profit increased in all segments
- It increased in line with an increase in net sales, and with an increase in gross profit margin resulting from the concentration of high profit margin projects

Orders Backlog

33.84bn yen
(1.24bn yen↓/3.5%↓)

- Orders backlog increased in Manufacturing and Trading businesses
- It decreased in Engineering business

Operating Profit

4.30bn yen
(1.27bn yen↑/42.1%↑)

- Operating profit increased as a result of an increase in gross profit that exceeded an increase in SG&A expenses, mainly personnel expenses

Ordinary Profit

4.46bn yen
(1.28bn yen↑/40.6%↑)

Profit

3.03bn yen
(0.86bn yen↑/39.7%↑)

Revision of FY2025 Financial Results Forecasts

Upward Revision

The financial results forecasts were further revised upwards, predicting that net sales, operating profit and ordinary profit will respectively reach new highs for the third consecutive year, and that profit for this period will reach a new high for the first time in four years

Reasons for the change

- While there were fluctuations in net sales in each segment, the forecast for the segments as a whole remains unchanged.
- As the gross profit margin in all segments is forecast to rise, all of operating profit, ordinary profit and profit is forecast to exceed the prediction in the previous forecast

Orders Received	Manufacturing	Forecast for the entire segment has been revised downward from the previous forecast because orders received in the energy-saving/creating and medical fields are anticipated to be lower than the previous forecast, although orders received in measuring and water treatment plant fields are expected to exceed the previous forecast
	Engineering	Forecast has been revised upward from the previous forecast on the back of the strong market condition although anticipated orders for large-scale projects have been postponed until Q4
	Trading	Forecast remains unchanged as demand remains at a high level

Net Sales	Manufacturing	Forecast for the entire segment has been revised downward from the previous forecast because sales in the energy-saving/creating and medical fields are anticipated to be lower than the previous forecast, although sales in measuring and water treatment plant fields are expected to exceed the previous forecast
	Engineering	Forecast has been revised upward from the previous forecast on the back of the strong market condition
	Trading	Forecast has been revised downward from the previous forecast due to the impact of long-term projects, although demand remains at a high level

Gross Profit	Manufacturing	Gross profit forecast has been revised downward from the previous forecast due to a decrease in net sales, although gross profit margin is expected to exceed the previous forecast
	Engineering	As net sales and gross profit margin have increased, gross profit has been revised upward from the previous forecast
	Trading	Gross profit forecast remains unchanged from the previous forecast due to an increase in gross profit margin, although net sales are anticipated to be lower than the previous forecast
